The skin is subject to changes caused by the process of natural ageing. All skin layers show age-related changes in structure and functional capacity and, as occurs in other body systems, this may result in increased susceptibility to a variety of disorders and diseases.

LeeAs Dermi Radiance, a combination of **L Glutathione, Vitamin C and Curcumin** gives skin a radiant glow, controls acne and prevents acne marks, defies the ageing process, protects skin from sun and environmental damages, lightens skin color, pigmentation, tan & freckles, anti-aging & anti wrinkles- makes skin smooth, fresh & radiant, hastens healing of wounds and nourishes skin.
